ody

The image shows a technical drawing of a cross-section of a foam layer. The top part of the drawing features two curved lines representing the upper boundary of the foam, with a small arrow pointing to the right on the right side. Below these lines is the text 'pp 1.3# Foam'. A horizontal line separates this text from the main body of the drawing. The main body shows a trapezoidal shape representing the foam layer, with a vertical line on the left side and a horizontal line at the bottom. The right side of the trapezoid is defined by two parallel lines that converge towards the right, indicating a tapered profile.
